ICNBME-2023 aims at bringing together scientists and engineers dealing with fundamental and applied research in the fields of nanotechnologies and biomedical engineering for reporting on the latest theoretical developments and applications.

The conference will be held in an offline format.

TOPICS

Contributing papers are solicited in the following areas:

- Nanotechnologies and nanomaterials
- Bio-micro/nano technologies and devices
- Biomaterials for medical applications
- Biosensors and bioinstrumentation
- Metrology in medical measurements
- Biomedical signal and image processing
- Bioinformatics and computational biology
- Medical physics and biophysics
- Molecular, cellular and tissue engineering
- Clinical engineering, health technology management and assessment
- Health informatics, e-health and telemedicine
- Biomedical engineering education
- Innovation, development and interdisciplinary research
- Nuclear and radiation safety and security
- Medical physics and radiation protection
- New technologies for diagnosis, treatment and rehabilitation, personalized approaches in medicine

DEADLINES

- May 15th, 2023 – **EXTENDED!!!** Submission of papers
- June 1st, 2023 – Notification of acceptance
- June 25th, 2023 – Advanced Conference registration
